THE

FNMI at the Outreach

We make a point of engaging the students in conversations and dialogue around many issues that are a reality in this day and age.

One of the areas is discussions around FNMI issues and most recently, the issues surrounding the implementation of Residential Schools.

We had some good discussions around the Metis experience of residential schools, and viewed a film called *Second Stories: It Had to Be Done* about two women who returned as adults to their residential school and worked to change it from the inside.

Second Stories - It Had to Be Done

We All Belong - We All Succeed

Strategies

Introduction of module due dates, with follow-up emails and NHIs (Not Handed In) for unsubmitted work. Continue to support students with daily check-ins in person, Remind messages, phone calls, and/or meetings with families to discuss student progress and engagement. Offering and encouraging increased flexibility in movement between the two campuses, allowing students to take options at the WEH campus. Art, music, and foods continue to be offered on-site. In future, allowing students to register for WEH campus options at the same time as WEH students may increase this further.

Strategies

Communicate to parents and stakeholders of the changes and improvements occurring at the school.

Learning Disruption

 The nature of our program means that each student receives guided instruction and one-on-one tutorials. Through this interaction we can assess the needs of each student and address them based upon the strategies that each student finds success with.

Hour Zero

It is our privilege to work with clients who are diligently committed to the safety of the children in their care.

Our Story

Since our beginnings in 1999, we have dedicated ourselves to helping K-12 schools deal with some of the most difficult situations a school may ever face.

We strive to understand every aspect of school culture and respect its unique needs. We recognize the challenges of providing quality education in a safe and caring environment, while facing budget and time constraints, as well as the importance of nurturing relationships with community partners, including parents and first responders.

The company started as a consulting practice that specialized in school emergency plans and associated training. The numerous challenges of ensuring school plans could be easily managed, kept current - including training staff and students, and accessible to all school community users compelled us to develop Hour-Zero Online and create a school emergency program that is unprecedented in its quality and scope.

Today, Hour-Zero is used by more than 200,000 teachers, school and district administrators, support staff and first responders. Hour-Zero caters to clients that range in size from small private schools to large urban districts, located across the USA and Canada. In 2009, Hour-Zero was selected as one of the Canada's ten most innovative small businesses through the Global Dell Small Business Excellence Award.

In 2010, Hour-Zero participated in the Department of Homeland Security NIMS STEP Evaluation. The evaluators concluded "HZ Online is consistent with all NIMS criteria." and stated, "HZ Online is intuitive and can enhance one's ability to do his/her job. The product is a robust preparedness tool that should enhance any school's emergency management system."

Hour-Zero continues to grow both our client base and our suite of offerings to schools. Regardless of what role you have in your school community, we at Hour-Zero will give you the time and attention you need to help ensure that from classroom to board room you are covered.

Hour-Zero is a privately held company and is incorporated in the USA and Canada.

- More comfortable & feeling of belonging
- All over "well being" has improved

We are very happy with the results so far!"

"Outreach is a wondrous place. Very quiet, calming, and the staff all have amazing senses of humour! The work and due dates are also way less stressful than a regular school."

"They support different learning styles, and give students a safe and comfortable place to complete their assignments."

Stakeholder Engagement

- How you plan to engage / re-engage with your public & stakeholders outside of the school building
 - Formation and participation in the Community Wellness Team
 - Social Media
 - Engaging with local news
 - Continuing with community engagement projects
 - Posting AERR on our Website and Social Media

Planning for 2024-2025

- Creating course and assessment practices that reflect our value of academic rigour and achievement,
- Tracking and responding to attendance trends to ensure the greatest impact on education experiences,
- Share this report/information with our stakeholders on the Wm. E.
 Hay website and with our school council,
- Seek stakeholder feedback for our Outreach Campus each semester.
